

100% TOMATO

a savory fruit

Tomatoes are often eaten and prepared as a vegetable, even though they botanically a fruit! No matter how you prefer your tomatoes, they are a great source of the antioxidant lycopene, which has been linked to reducing heart disease and cancer. Tomatoes generally have a short season, spanning the course of summer, but our MicroDried® tomatoes are packed year-round for consistent availability. The reduction in moisture gives a great shelf stable product, and for a fruit that is 95% water, it gives a perfect crunch and pop of color!
