

# Teas

MicroDried® fruit and vegetable ingredients revolutionize the world of beverage applications, providing consistency in color, flavor, nutrition, and versatility. Unlike other alternatives, MicroDried offers a remarkable range of benefits that are simply unmatched.

When it comes to finding the perfect dried fruits for your application, MicroDried delivers excellence tailored to your preferences and desired flavor profile. With an extensive selection of fruit varieties and forms, you have the power to discover the ideal ingredients for your specific tea blend. Whether you're seeking a distinctive combination of flavors or fruit with specific health benefits to enhance your tea, MicroDried presents an array of variations that effortlessly complement any traditional tea base.

At MicroDried, we understand that you may have unique labeling requirements or need to make specific health claims for your products. That's why our fruit and vegetable offerings provide a Single Ingredient Statement, enabling you to meet these demands with ease and confidence.

# Advantages

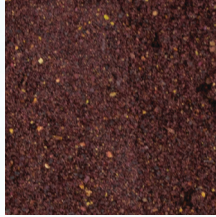

The advantages of MicroDried go far beyond exceptional color and flavor. With MicroDried, you are getting 100% fruit without any additives or fillers, capturing the essence of the original fruit in its dried form. When it comes to tea applications, the following benefits make MicroDried the optimal and hassle-free choice:

- **Enhanced Blending Efficiency:** The cell structure of MicroDried ingredients minimizes yield loss during blending, ensuring maximum utilization.
- **Unmatched Colors and Flavors:** MicroDried offers superior colors and flavors, delivering a sensory experience that elevates your tea creations.
- **Clean-Label Solutions:** MicroDried products consist of 100% fruit and vegetable ingredients, free from additives, sugars, or fillers, allowing you to provide a wholesome and authentic tea experience.
- **Nutritional Integrity:** MicroDried retains the essential nutritional value of vitamins, polyphenols, and antioxidants present in the fruits, enhancing the health benefits of your teas.
- **Superior Food Safety:** MicroDried products undergo stringent measures to ensure significantly reduced microbial loads, guaranteeing the safety and quality of your food and beverage creations. Our ingredients are Ready-to-Eat certified, meeting the highest standards of safety and quality.
- **Extended Shelf Life:** Our products have a shelf life of 24 months from the date of packaging when stored under our recommended conditions, providing long-lasting freshness and convenience.
