

Homemade Orange Cleaner

Ingredients

- Standard size spray bottle
- 4 cups white vinegar
- 1/2 cup **MicroDried® Orange Fragments**
- 2 cups water
- 10 drops rosemary essential oil

Process

1. Add orange fragments to a large mason jar and pour in vinegar.
2. Seal and place in a cool, dark area for 2-4 weeks. It can be left for 8 weeks if time permits.
3. Strain the fragments, then pour the vinegar in glass container.
4. Add in water and rosemary oil. Pour into spray bottle.
5. Store product in a cool and dark area.
