

Sweet Potato

MicroDried® Sweet Potatoes offer versatile solutions with a natural appeal. Made using our innovative Radiant Energy Vacuum (REV) process, our Sweet Potatoes maintain their copper color, intact cell structure, and flavor.

Clean Ingredient Statement: MicroDried Sweet Potatoes are processed without any additives or preservatives, ensuring a clean and simple ingredient statement.

Nutrient Rich: Thanks to the REV process, MicroDried Sweet Potatoes retain their high nutritional analysis, preserving essential vitamins and minerals, adding value to a wide range of applications.

Versatility: Whether you need Sweet Potato powder for even flavor distribution, fragments for distinctive piece identity, or cubes for unique texture and visual appeal, MicroDried offers versatile Sweet Potato products suitable for various applications.
